MAR 12 1951

Hon. E. L. Bartlett
House of Representatives
Washington, D. C.

Dear Bob:

Now that the Alaska Statehood Committee has indicated its desire that the anti-reservation clause be omitted from the Statehood Bill, I hope we can safely assume that it will not be reinerted this year. I am also assuming that you very definitely don't want the clause in the bill because of the amount of trouble it caused during the preceding Congress. I hope you will help me to keep an eye out for any developments indicating activity on the part of this clause so that I can express myself strongly against it.

I believe you and I have slightly different ideas about how necessary it is to keep this clause out, but I am sure you will feel strongly that it should never be inserted again without our being given an opportunity at hearings to oppose it.

I think you will also be interested to know that Secretary Chapman has overruled Commissioner Myer in four out of the fourteen cases that were submitted to him by me and former Secretary Jakes. I am sending you herewith a copy of my memorandum of ~~March 3~~ to Justice H. B. Johnson of the Supreme Court of Oklahoma reporting on the effect of these four decisions. I hope the balance of these decisions will be as favorable as the four that have already been issued. They involve several of my contracts in Alaska.

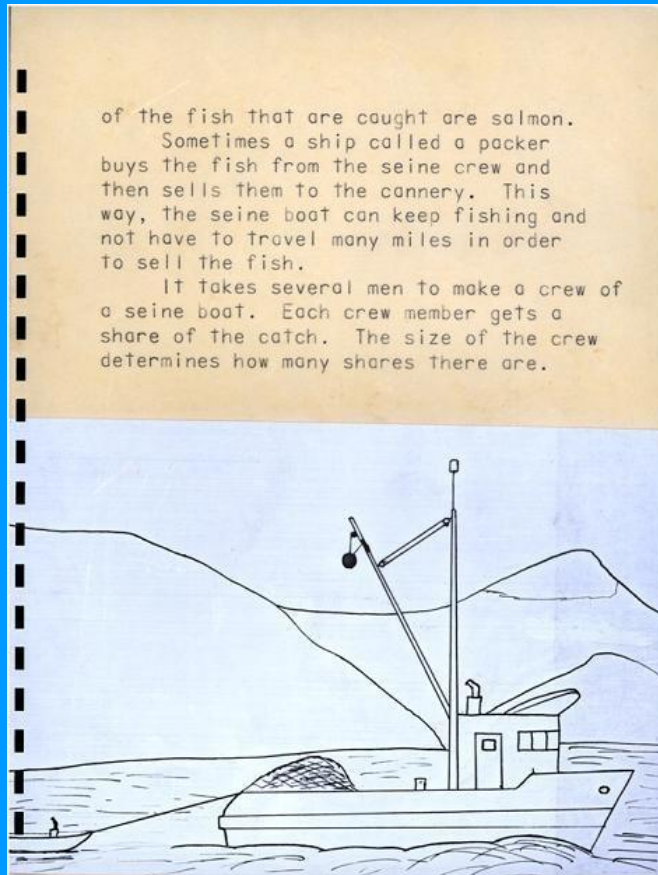

Very truly yours,

The Autry National Center's libraries, the Braun Research Library & the Autry Library, hold one of the nation's most comprehensive collections on Native American cultures & the history of the American West. Through a grant from the NHPRC, the [Autry National Center for the American West](#) has set out to process about 2,000 linear feet of archival material over the next two years. Once each month, the [Autry Libraries blog](#) will feature gems brought to light by Processing Archivist Holly Larson.

It's a typical day in the Braun Research Library Archives. I'm working with 100-year-old newspaper & historic cyanotypes (photographs printed with a similar process to blueprint; images appear as blue monochromes) & creating inventories & finding aids so that researchers can use collections. I opened a drawer & found what looks like an original parchment certificate; a land grant from the U.S. Government to James Taylor, assignee of William Taylor, for 7 years of Taylor's voluntary service in the military, document dated 1807 & signed by Thomas Jefferson & Secretary of State, & later President James Madison. BE FLEXIBLE

(IN UNITY THERE IS STRENGTH)

- Let more than 1 person work from prospectus to completion
- CONSIDER A CONSULTANT PROJECT AS YOUR 1ST PROPOSAL
- CONSIDER HOW RECORDS MANAGEMENT MAY STRENGTHEN YOUR ARCHIVAL PROGRAM PLANS

Letter, Richard Nixon-James Curry, February 14, 1951. Sealaska Heritage Institute

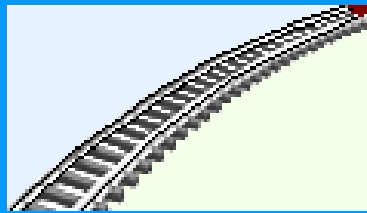

THINK CREATIVELY ~ FOR EXAMPLE ~

NHPRC digitizing projects must involve records with **NATIONAL**, not just *regional or local history significance*

- *A persuasive national significance case is up to the applicant*
- *NHPRC's FAQ on how to do this is a good place to start.*
- *What about a topic like Ongoing Indigenous-European Cultural Interrelationships, Not necessarily Westward Movement. Ongoing cultural development within the US?*

THINK CREATIVELY (continued)

- Would pre-American ~ like Russian Colonial records be considered competitive?
- Russian Orthodox Church records?
YES, BUT ~
- *CONSIDER BOTH CUTTING EDGE & OLD FASHIONED APPROACHES ~ FOR EXAMPLE ~*
Microfilm is NOT dead!

SET REASONABLE GOALS

- *BREAK ULTIMATE GOALS INTO LIMITED GOALS*
- *Cooperate ~ FOR EXAMPLE ~*
 - Cooperative grants among 2 or small communities or institutions
